

Executive Office Space Solution

The Olivia Greets' virtual receptionist solution offers executive office space providers the ability to differentiate their offering in an increasingly competitive market.

OVERVIEW Executive office space providers have long been the ideal solution for business people that travel frequently, are in between office spaces or need meeting space. Yet, unlike having your own office, the doors commonly close at five o'clock. By using the Olivia Greets virtual receptionist, executive office space providers can now allow access to all of their clients 24 hours a day and recognize their clients from office to office without having to worry about lost revenue due to billing complications. Furthermore, the Olivia Greets system allows office staff to multi-task and to provide additional value-adding and revenue generating services to clients.

FEATURES

The Olivia Greets system will perform all the following and more:

- Recognize and greet client at any office
- Display office location information
- Start and stop hourly billing for clients
- Print required informational documents and forms
- Provide Virtual Concierge services via personal avatar
- Provide access control
- Welcome guests and clients with digital signage

USE CASE

A global executive office space provider leverages the Olivia Greets solution to enhance the experience of their customers while reducing cost and driving incremental revenue. Whether the client is a full-time tenant or typically visits offices located across multiple cities, Olivia Greets knows who the customer is when they arrive at the front door providing a truly personalized service. Now that Olivia Greets is handling the meet and greet requirements, office staff is now allowed to focus on activities that generate revenue and provide better service for clients. Finally, the unique, avatar-based system provides another way for executive office space providers to differentiate themselves in a challenging marketplace.

CONTACT
